

SPECIAL ISSUE

International Society for Precision Health (ISPH) 2026 Annual Conference

Conference
21–23 October 2026

Location
Yilan, Taiwan

Submission deadline
April 2027

About this special issue

This Special Issue of the Journal of Gene and Cell Metabolism in Medicine will compile selected abstracts and proceedings presented at the 2026 Annual Conference of the International Society for Precision Health (ISPH), held in Yilan, Taiwan, from October 21–23, 2026. The Special Issue aims to disseminate emerging research on precision health, nutraceuticals, functional foods, personalized nutrition, and molecular mechanisms of disease prevention to a global scientific audience.

Conference background

The 2026 Annual Conference of the International Society for Precision Health (ISPH) will be held in Yilan, Taiwan, from October 21 to 23, 2026. The conference will bring together leading scientists, industry experts, healthcare professionals, and policymakers from around the world to share knowledge and discuss the latest advances in precision health, nutrition, nutraceuticals, functional foods, personalized nutrition, and disease prevention.

Since its establishment, ISPH has served as an international platform for promoting precision health research and facilitating interdisciplinary collaboration. Its major areas of interest include nutraceuticals, dietary supplements, functional foods, personalized nutrition interventions, and innovative strategies for improving health outcomes and reducing disease risk. ISPH has established a global network connecting researchers, healthcare professionals, industry stakeholders, regulatory agencies, and the broader scientific community.

The previous ISPH conference attracted approximately 524 participants from 52 countries worldwide, demonstrating the Society's growing international reach and multidisciplinary engagement. In addition, ISPH regularly organizes online thematic seminars to promote continuous scientific exchange and professional collaboration among researchers.

The 2026 Annual Conference provides an excellent platform for presenting recent scientific advances, exchanging innovative ideas, and establishing international collaborations in the rapidly developing field of precision health. The conference will particularly highlight emerging evidence on bioactive compounds, nutraceuticals, functional foods, personalized nutrition, molecular mechanisms, and their potential applications in health promotion and disease prevention.

The organizing committee warmly invites participants from academia, industry, healthcare, and regulatory agencies to join this international scientific event and contribute to high-quality scientific exchange and collaboration.

GUEST EDITORS

Prof. Dr. Chin-Kun Wang

Lead Guest Editor

President, International Society for Precision Health (ISPH)
United Nations Goodwill Ambassador
Professor, Department of Nutrition, Chung Shan Medical University
Taichung, Taiwan
wck@csmu.edu.tw

Prof. Dr. Anca Miron

Guest Editor

Department of Pharmacognosy–Phytotherapy
Grigore T. Popa University of Medicine and Pharmacy
Romania
anca.miron@umfiasi.ro

Prof. Dr. Kenji Sato

Guest Editor

Division of Applied Biosciences, Graduate School of Agriculture
Kyoto University, Japan
kenji-sato@pharmafoods.co.jp

Prof. Dr. Perry K.W. Ng

Guest Editor

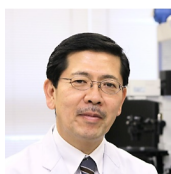

Professor Emeritus, Cereal Science
Department of Food Science and Human Nutrition, Michigan State University
East Lansing, Michigan, USA
ngp@msu.edu

Dr. Thierry Astruc

Guest Editor

INRAE — National Research Institute for Agriculture, Food and Environment
France
thierry.astruc@inrae.fr

Dr. Jun Nishihira

Guest Editor

Department of Medical Management and Informatics
Hokkaido Information University, Ebetsu City, Hokkaido, Japan
nishihira@do-johodai.ac.jp

Submission information

Selected conference abstracts and proceedings. Submit by **April 2027**. In the submission wizard, select the ISPH 2026 special issue under **For the Editors** → **Assign to Issue**.
